San Lorenzo
1493-1494
Michelangelo
The sculpture of San Lorenzo is a masterpiece of Michelangelo's early work. It depicts the saint in a dynamic, almost dancing pose, with a sense of movement and grace. The figure is shown in a three-quarter view, with his head turned slightly to the right. He wears a tunic with a belt and a cape draped over his left shoulder. He holds a book or tablet in his left hand. The sculpture is made of marble and is housed in a glass display case.

Michelangelo's Torso
1490-1492
Michelangelo
The Torso is a marble sculpture by Michelangelo, depicting a male figure from the waist up. It is one of the most famous works of the artist's early career. The figure has a large, circular mark on his chest, which is thought to be a reference to the wound of Christ. The sculpture is made of marble and is housed in a glass display case.
